†CAUTION TO PHYSICIANS: BEFORE SIGNING, READ THIS ENTIRE STATEMENT CAREFULLY.

The physician will personally complete the certification on the face of the certificate by inserting the words "was not" in the space provided in the second paragraph, if the resultant statement would be true. The words "was" or "was not" should be inserted in the blank space in the third paragraph depending upon the nature of the cause of death.

Section 878-1.0 of the Administrative Code for the City of New York provides that the death of any person from criminal violence or by a casualty or by a suicide, or suddenly while in apparent health, or when unattended by a physician, or in any suspicious or unusual manner, shall be reported forthwith to the Office of the Chief Medical Examiner. Only the Medical Examiner may issue a death certificate in such cases.

FAILURE TO REPORT TO THE MEDICAL EXAMINER IS A MISDEMEANOR.

TO FUNERAL DIRECTORS

This certificate must be accompanied by an envelope, sealed by the physician, containing the Confidential Medical Report. No permit for the disposal of the body can be granted until the Confidential Medical Report is filed. Tampering with the envelope containing the Confidential Medical Report, or delivery of that envelope to any one other than an official of the Bureau of Records and Statistics of the Department of Health, designated to receive such reports, will result in the revocation of a Funeral Director's permit to do business in the City of New York.

The personal and statistical particulars called for in the left half of the certificate of death MAY be filled in by the Funeral Director. The Funeral Director will be required to obtain and supply all available information, missing from this section of a death certificate when delivered to him by a physician or hospital. In every case, the information contained in this section shall be verified by the next of kin, or person authorizing the funeral, and the Informant, if a resident of New York City, or otherwise available, shall personally sign his or her full name, relationship to the deceased, and home address, in Item 15 of the certificate of death.

Caskets containing bodies of persons dead from certain communicable diseases must be permanently sealed before removal from the place of death. Section 103 of the Sanitary Code of the Board of Health requires that every undertaker engaged for, or in charge of, the preparation and burial of the body of a person who died in the City of New York from any of the following diseases: **Asiatic Cholera, Diphtheria, Meningococcic Meningitis (Epidemic Cerebrospinal Meningitis), Plague (all forms), Acute Anterior Poliomyelitis (Infantile Paralysis), Scarlet Fever (Scarlatina), Smallpox (Variola) and Typhus Fever**—shall immediately place the body in a coffin and permanently close and seal it with seals provided for the purpose by the Department of Health.

Removal of bodies prohibited without permit. The regulations of the Board of Health prohibit the removal of the body of a human being, who died in the City of New York, unless a permit therefor has been obtained from the Department of Health, except when such removal is ordered in connection with an investigation conducted by the Office of the Chief Medical Examiner, a District Attorney or the Police Department.

Permission to remove dead bodies granted by telephone. In keeping with these regulations, the Department of Health will grant to Funeral Directors by telephone, permission for the removal of a body to a home or funeral chapel, provided the application is made by a licensed Funeral Director who has the certificate of death in his possession at the time of telephoning.
